Safety

Target group

This document is aimed at the operators and users of all products that include IPEE Mini (mains-operated or battery-operated).

Intended use

IPEE Mini is intended to flush urinal ceramics.

Safety notes

- Operation, care and maintenance work may only be performed by the operator or user as described in this user manual.
- Do not modify the IPEE Mini or add any additional modules.
- If there is any indication of damage or defects, do not open and attempt to repair the IPEE Mini yourself; call in a skilled person.
- Repairs may only be carried out by a skilled person using original spare parts and accessories.
- For mains-operated versions, provide an easily accessible circuit-breaker.
- For indoor use only.

Product description

Function of the IPEE Mini

IPEE Mini detects usage by measuring the salt concentration in fluids running over the sensitive area of the sensor, through the ceramic or plastic surface of the urinal. Approximately 12 seconds after the end of usage is detected, the flush is activated.

Technical data

Working voltage:	6V
T Ambient:	+5 °C to +45 °C
Relative Humidity:	10 %RH to 90 %RH (non-condensing)

Disposal

Safety notes

This product meets the requirements of Directive 2011/65/EU RoHS (restriction of the use of certain hazardous substances in electrical and electronic equipment).

Disposal of waste electrical and electronic equipment

In accordance with Directive 2012/19/EU (WEEE-II), manufacturers of electrical equipment are obliged to take back old equipment and to dispose of it appropriately. The symbol indicates that the product cannot be disposed of with non-recyclable waste. Old equipment should be returned directly to IPEE, where it will be disposed of appropriately. Please contact your responsible IPEE sales company for addresses to which equipment can be returned.
