

Aquasit cold casting compound, cartridge

Aquasit is a two-component casting compound in a cartridge, for applications in areas with continuous and extremely high levels of moisture. It can also be used against mechanical shock and vibrations. The cartridge is suitable for use in standard cartridge pistols. At room temperature, the unopened aluminium packaging can be stored for up to 18 months. When the cartridge is opened, the material should be used within 24 hours. Practical experience, tests and approvals valid only in conjunction with OBO junction boxes. Aquasit properties: Protection rating with appropriate junction box: IP68 at 1.8 bar/1,000 hrs Rated voltage: 400 V Penetration resistance: >20 kv/mm to VDE 0291 Part 2 Operating temperature: -40 to +90 °C Processing temperature: 0 to +40 $\,^{\circ}\text{C}$ Halogen-free, silicon-free, isocyanite-free Environmentally friendly and without the need to be labelled Type Contents Pack. Weight Item No. ml pcs kg/100 pcs. 1 42,000 **2363010 KVM** 250
