

Declaration of Similarity

For Synergrid C10/11:

**SPECIFIC TECHNICAL PRESCRIPTIONS REGARDING POWER-GENERATING
PLANTS OPERATING IN PARALLEL TO THE DISTRIBUTION NETWORK.**

Applicable to inverters connected to the low voltage grid:

Inverter Types:

SUN2000-10KTL-BEM1 (Three Phase)

Statement:

The above-mentioned Solar Inverter Model (Power Park Module, PPM) is a derived model for the Belgium market, based on the standard SUN2000-10KTL-M1. The output power is limited to maximum 10kVA as indicated on the type label and datasheet.

All other certifications and test reports, including but not limited to the CE declaration of conformity, can be referred to the standard model SUN2000-10KTL-M1
